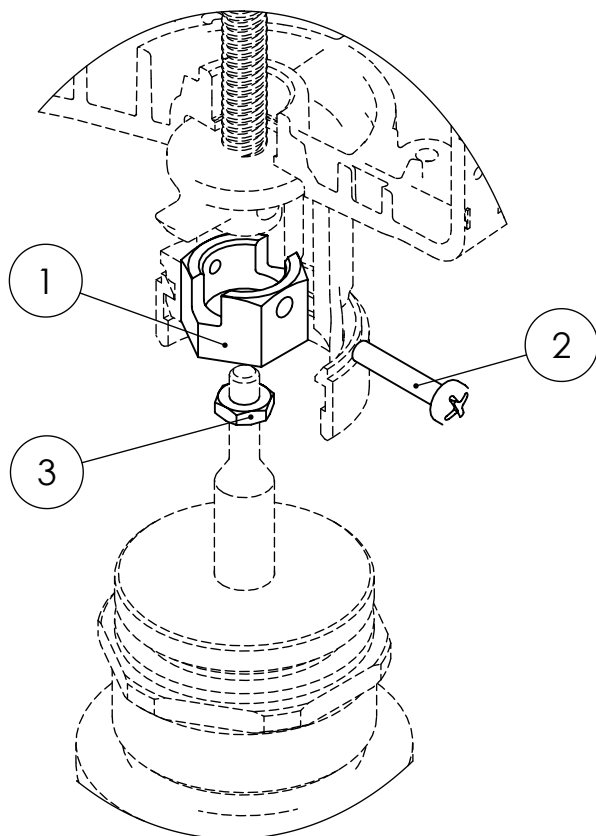

Fig. 1

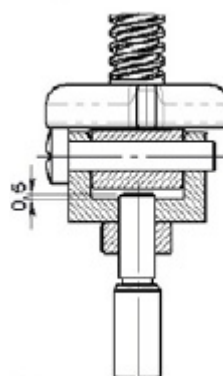

Fig. 2

- Remove the nut from the valve stem; for models 2-3TGB.B remove also the brass hex nut on the valve neck and the spindle extension provided;
- screw the nut **(3)** on the stem;
- screw the hex joint **(1)** onto the valve stem and secure with nut **(3)**, see also Fig. 2;
- using the manual override align actuator spindle slot with the hole on the hex joint **(1)** and secure it with screw **(2)**.
